

Why is KYAC important?

Serving as the voice of Kansas Youth in Care since 2000

The Kansas Youth Advisory Council is a statewide, youth-led council. These young adults provide positive recommendations and changes to the child welfare system concerning issues that affect them directly.

The council uses its voice to better the foster care experience for all those involved. The youth who serve on this council are leadership youth who have demonstrated their ability to communicate and passion to use their voice to advocate for themselves and other youth affected by the Kansas child welfare system.
